

Update to QuickTake 200 User's Manual

QuickDraw GX printing incompatibility

The QuickTake 200 Print Extension is not compatible with the QuickDraw GX Extension. You must turn off the QuickDraw GX Extension before using the Camera Access application. Use the Extensions Manager (in the Control Panels folder) to turn off the QuickDraw GX Extension; then restart your computer.

FCC statement

The text below supplements the Class B FCC statement in the manual.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- **this device may not cause harmful interference, and**
- **this device must accept any interference received, including interference that may cause undesired operation.**
